<b>ACCT 70701 Bankruptcy</b>
An understandable and comprehensive explanation of the various aspects of bankruptcy. Guiding the student through the advantages and disadvantages of bankruptcy and offers practical advice on how to deal with lawyers and creditors.
<b>ACCT 70711 Advanced Accounting</b>
Financial accounting theory, concepts, methodology, and structure. Coverage will include partnerships, business combinations, consolidations, and SEC reporting problems. Also, a study of financial accounting with emphasis on the liability and owner's equity.
<b>ACCT 70721 Accounting Theory</b>
A study of underlying concepts of financial accounting with application to problem areas. Critical analysis of current pronouncements on accounting postulates and principles.
<b>ACCT 70731 Accounting Information Systems</b>
The integration of information flows of various segments of a business organization into an information system of the total organization, with emphasis on the accounting aspects of electronic data processing.
<b>ACCT 70741 Government Accounting</b>
A study of internal budgeting and reporting systems, techniques of measurement and data collection, and preparation of financial statements for governmental bodies and non-profit organizations. A computer project, which entails the use of a spreadsheet, is required.
<b>FIN 70721 Options</b>
An examination of the organization structure of speculative markets and the performance of speculative assets. Topics include the institutional nature of options and futures markets; investment and hedging strategies; and the valuation of options on stocks, interest rates, and futures contracts as well as the analysis of commodity, interest rate, stock index, and foreign exchange futures prices.
<b>FIN 70741 Forecasting</b>
Univariate forecasting models; multiple time series model building. Applications to business trends and business cycles.
<b>DISS Dissertation</b>
The Dissertation.
